

Forcible

THE TOTEM

By

AROC

Atelier Rochelais d'Ouvrages Chaudronnés

Designed by a firefighter for firefighters and other emergency services. The TOTEM allows firefighters to integrate the essential safety rules when using a rescue saw, at different heights and cutting positions.

TECHNICAL AND EDUCATIVE FEATURE

- Designed for the work of cutting metal using the Rescue Saw.
- Reinforcing bars supports for horizontal or vertical precision cuttings, at different heights.
- Steel flat bars supports for more wide vertical and oblique cuttings.
- System of indexable handles to obtain a manual powerful locking (no tools required) of cutting elements.
- Anchoring rings for U-locks and high security padlock cuttings, at different heights.
- Non-slip surface.

PRATICAL AND LOGISTICAL FEATURES

- Easily transportable.
- Total autonomy on consumables :
 - Concrete irons.
 - Steel flat bar.

TRAINING PADLOCK / U-LOCK

Manuel bender included on the totem.
